Easy Pay-By-Phone Option Saves You Time

In June, 2003, the Marietta Board of Lights and Water (BLW) introduced a new way of paying utility bills through the internet. Beginning in October you can pay your utility bills day or night from the comfort of your own home with the new Pay-By-Phone option.

"We introduced this convenient new service in response to requests from customers who wanted an easier way to pay utility bills," said Sherri Rashad, customer service manager for the BLW. "Like the on-line payment service that the BLW started earlier this year, the new

Pay-By-Phone service allows customers to make payments 24 hours a day, seven days a week, without having to wait for regular BLW office hours."

Now, when you call the BLW's main number (770-794-5150) you will hear a list of menu options that includes "Make Utility Payment by Phone." The system will ask you to key in the credit card number that you wish to use to pay your bill. The system will accept VISA, MasterCard, Discover and American Express for payment.

When you select the appropriate option, the system will then ask you for your BLW

Where Does My Water Come From?

Marietta Water purchases water from the Cobb County-Marietta Water Authority (CCMWA). The CCMWA treatment facilities are supplied from two separate surface water sources. The Wyckoff Treatment Facility obtains water from Lake Allatoona. The Quarles Treatment Facility obtains water from the Chattahoochee River. Once the surface water is treated, it is transformed from the treatment facilities to the Marietta Distribution System and then to you.

During 2002, the Cobb County-Marietta Water Authority and the Atlanta Regional Commission completed a Source Water Assessment itemizing potential sources of water pollution to our surface drinking water supplies. This information can help you understand the potential for contamination of your drinking water supplies and can be used to prioritize the need for protecting drinking water sources.

A Source Water Assessment is a study and report which provides

Economic Conditions Force the City of Marietta to Increase Sanitation Rates

New garbage rates took effect for Marietta City sanitation customers on September 1.

The cost of picking up a mini-can increased from \$18 to \$18.50 per month, and the cost of picking up a regular can rose from \$20 to \$20.75. The charge for three cans increased from \$29 to \$31.50, and the cost for four cans or more is now \$31.50, plus \$5

for each additional can. Recycling fees remain the same. Extra curbside trash pick-ups now range from \$12-\$37, depending on the weight and volume.

If you have any additional questions on the city's sanitation services, please call 770-794-5581. ⚡

account number. After keying in your utility account number on the keypad of your telephone, you can then key in your credit card number and the system will process your payment and give you a confirmation. As a result, you can spend your valuable free time on more important matters than paying utility bills.

"The new Pay-By-Phone system will also help reduce the length of time that customers spend on hold when calling the BLW about their utility accounts," Rashad said. "As with the BLW's on-line payment system, which enables customers to pay utility bills on the Internet, the new Pay-By-Phone system demonstrates our dedication to providing our customers with the utmost convenience." The on-line payment system can be accessed through www.mariettapower.com. ⚡
